

# MICROBE-LIFT®

## SEPTIC SYSTEM & CESSPOOL TREATMENT

## REDUCE PUMPING OF YOUR SEPTIC TANK

THE SEPTIC TANK AND LEACH FIELD TREATMENT FOR YOUR HOME

### ECO FRIENDLY

#### NON TOXIC

MICROBE-LIFT'S 100% fully matured anaerobic bacteria goes to work in situations where there is no air present, such as in a septic system.

It is harmless to human, animal and plant life and is 100% safe to groundwater.

### SAVE MONEY

#### LOW COST MAINTENANCE

Dose directly into toilet and flush.

**FOR AVERAGE  
4 000 – 8 000 L SYSTEM**

First application: 32oz/946 ml

Maintenance: 32oz/946 ml every  
6 months

## SEPTIC SYSTEM & CESSPOOL TREATMENT

The finest septic tank product available. Keeps your septic system free-flowing. Dramatically reduces odours.

**NON-TOXIC, NON-PATHOGENIC & NON-CAUSTIC**

**GUARANTEED TO  
DIGEST GREASE, FATS,  
OILS AND TISSUES.  
IMPROVES SYSTEM  
PERFORMANCE**

**MICROBE-LIFT'S** Full spectrum anaerobic bacteria product is manufactured under a proprietary process which has been verified by independent laboratory tests to contain the highest levels of anaerobic bacteria. All bacteria present in this product are derived from 100% natural sources.

#### SEPTIC TANK MAINTENANCE

Household cleaning products are as a rule designed to kill bacteria and the tank's anaerobic bacteria must therefore be replenished from time to time. Maintenance dosing will ensure a continued reduction in the sludge volume and the septic tank will thus have to be pumped out less often.

**MICROBE-LIFT'S** Septic System & Cesspool Treatment restores and boosts the necessary bio-enzymatic action in your system, improving overall performance.
