

BIO-AVAILABLE • NON-TOXIC • NON-PATHOGENIC • BIO-AVAILABLE • NON-TOXIC • NON-PATHOGENIC

MICROBE-LIFT/DGTT is designed specifically for industrial, institutional and municipal effluent line and trap treatment.

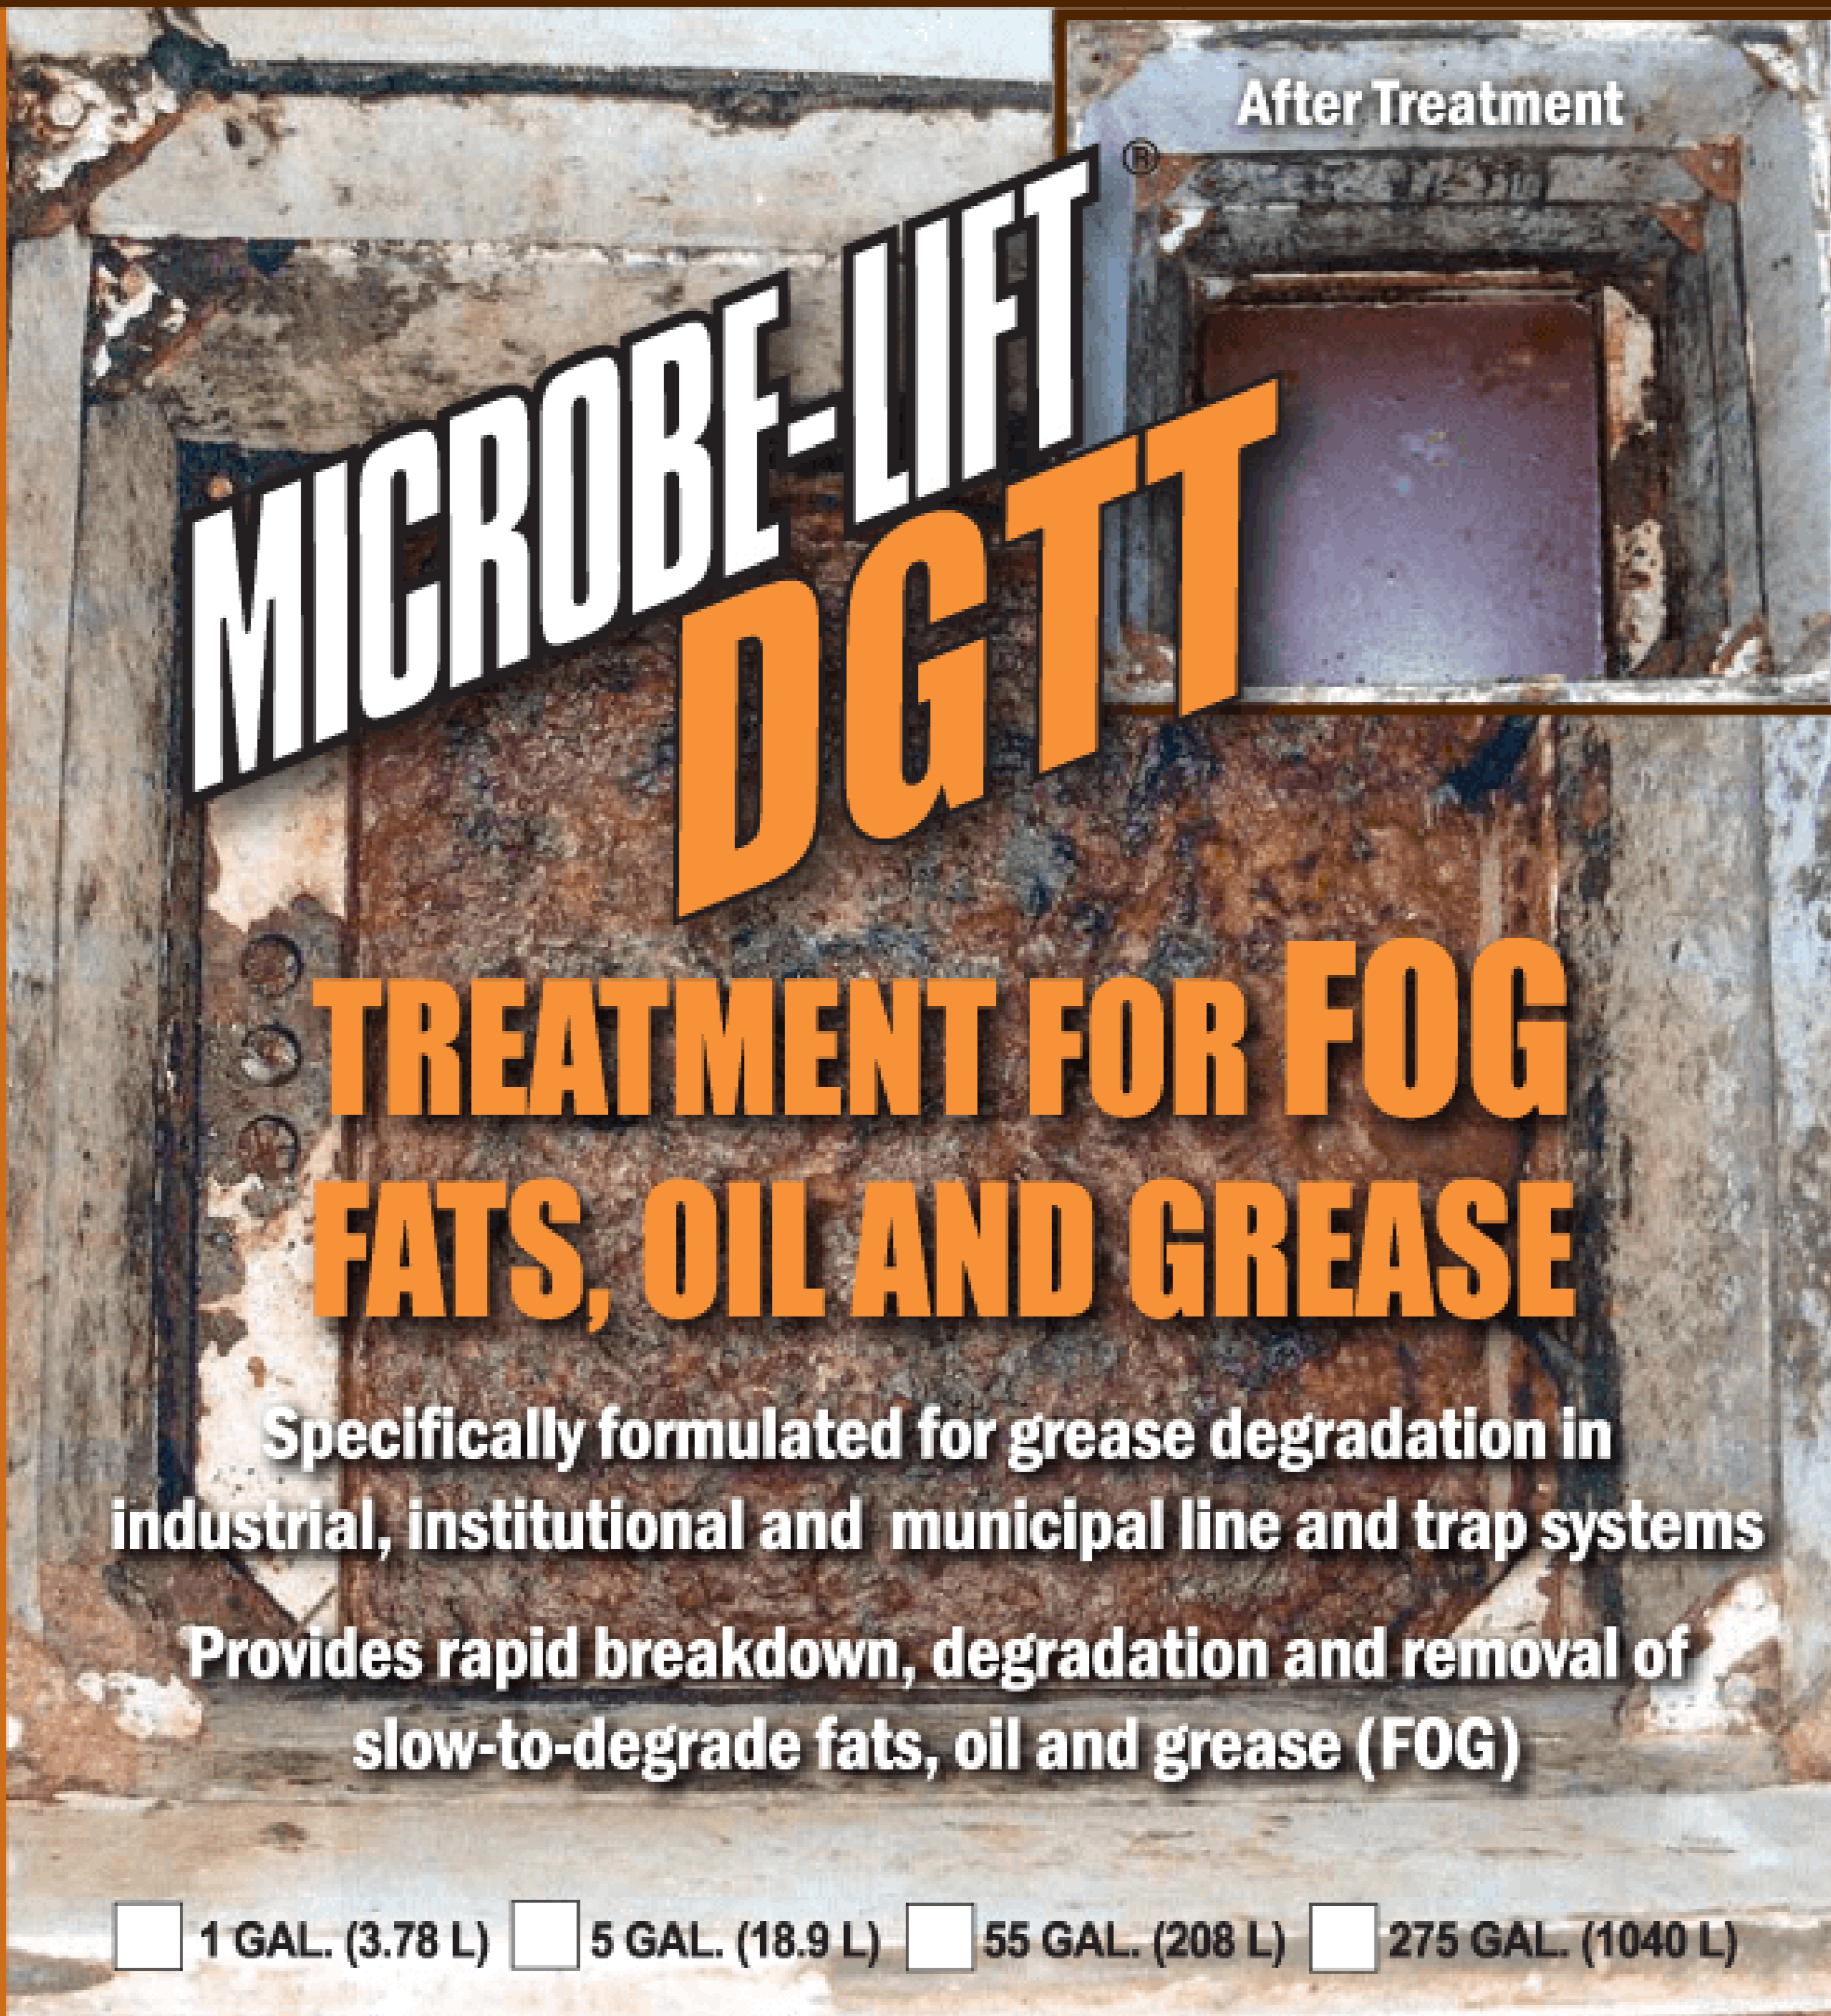

MICROBE-LIFT/DGTT will eliminate odor and provide significant reduction in line and trap maintenance and reduce line blockages. Degrades grease, fats and oils, reduces line and trap deposits and accumulations, resulting in lower fats, oil and grease (FOG).

MICROBE-LIFT/DGTT works in a wide range of temperatures. Effective in pH of 4.5 to 10.5.

CAUTION: Keep out of reach of children. Do not take internally. Avoid contact with eyes. Flush immediately if needed. Use gloves and safety glasses when handling spills. If contact is made, wash with soap and water. If swallowed, drink several glasses of water. Contact physician if any irritation persists.

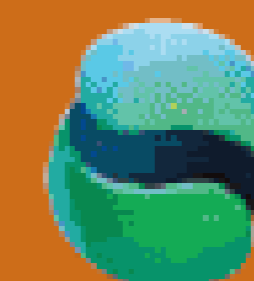

Item No. MLDGTTG1

Directions

Apply MICROBE-LIFT/DGTT at the head of the main discharge line or directly to affected lift stations and grease traps. Application rates may vary based on system design, flow and grease loading. Consult your representative for specific recommendations.
